

## Foreland Basins and Foldbelts (AAPG Memoir)

This is the fourth in the AAPG Petroleum Basins Series and focuses on the Western Canadian basin and foreland as the type area, with five analog basins in the United States, Iran, and Venezuela. American Association Of Petroleum Engineers (AAPG) Founded in 1917, we are the worlds largest professional geological society, with over 30,000 members. We are a pillar of the world-wide scientific community. Our books foster scientific research, advance the science of geology and promote the most effective use of petroleum extraction & processing technology and practice. Some of the areas we publish in include: GIS Petroleum Engineering Well Log Analysis Geological Modeling Carbonate Petrology Seismic Imaging Reservoir Characterization Regional Petroleum Analysis
