

## How Mendocino County Went to Pot: Memories of Life in Mendocino Redwood Country in the Last Half of the 1900s

The story is a lively and anecdotal factual account and a cautionary tale of the local and national events that shaped the destiny of late 1900s forest product and fishing industries in Mendocino County and the world we live in. Thus it is a must read for anyone who longs for development of sustainable communities, who would avoid the mistakes of the past, and who would be a partner in the ultimate triumph of conservation.
