

Climate Change, Service Economy and Industry: With Empirical Cases & Theories

This book shows how industries perceive weather as they pose their positioning in climate change adaptation. With empirical analysis, this book extends policy discussion. Weather and climate related industries are clearly knowledge intensive service sectors that have not blossomed yet. Holding his Ph.D. degree from the LBJ School (Dec. 1997), Junmo Kim is a Professor at the Dept. of Public Admin, Konkuk University, in Seoul, Korea. Before coming to the University, he has served as an Associate Research fellow at two government funded research institutes, the Science & Technology Policy Institute (STEPI) and Korea Inst. of Public Admin (KIPA). His areas of interests include Science, Industrial & Technology Policy, Regional Development, Wage analysis, and Policy Evaluation. At the university, he teaches Science & Technology Policy, Policy Evaluation, Regional Development, and E-government issues. His major publications include The South Korean Economy (Ashgate 2002), Globalization and Industrial Development (iUniverse 2005) and contributing chapters in Inequality and Industrial Change (Cambridge 2001, James K. Galbraith ed.) and Learning and Knowledge for the Network Society (Purdue University Press 2004).
