

Science and Technology (USA Past, Present, Future)

Take a trip through time with this exciting series about all aspects of U.S. history. From fashion to foreign affairs, each title takes a look at the biggest events of every decade in the past 100 years. With a focus on the future, students will learn how great moments and inventions years again shaped the face of the nation today. Timelines and activities get readers thinking about how people lived during each era.
