

Hurricane Katrina: Through the Eyes of Storm Chasers

Hurricane Katrina: Through the Eyes of Storm Chasers offers a historic and unprecedented view inside a Category 5 hurricane and of the devastating aftermath. Award-winning extreme-weather photographer Jim Reed and storm-chaser/videographer Mike Theiss document the most destructive natural disaster in U.S. history at every stage, from the days in which the Gulf Coast prepared for the approaching hurricane and evacuation procedures began to the moments when the hurricane made its monstrous landfall and wrecked havoc on the region. The compilation includes photographs of Louisiana, including New Orleans, Mississippi, Alabama, and Florida. Chilling before and after images demonstrate the power of this historic hurricane. Captions detailing personal stories and weather facts accompany the shocking images.
