

Differently Me!

Differently Me! is a book about living with neurodiversity - that is, having a disorder such as Aspergers, ADD or ADHD, Tourettes, and/or for those who function with similar mental, neurological and learning disorders. It is written by a former psychotherapist on the spectrum who practiced a form of therapy called Acceptance and Commitment Therapy. There is no mention in this book of a cure or quick fix, as this book is instead about accepting yourself and living with your limitations and your STRENGTHS and uniqueness! Differently Me! was designed to be read quickly and be able to be referenced easily when you need it. The concepts presented in the book are lived out each day in the author and his clients.
