

## Face to Face with Butterflies (Face to Face with Animals)

You're keeping sooooo still. You're trying not to even breathe too loudly. You don't want to disturb the most wonderful, delicate-looking creature you've ever seen. Insect expert Darlyne Murawski leads young readers inside the fascinating world of butterflies: learn how they are magically transformed from squirmy caterpillars; discover how each species develops unique wings; and witness a butterfly food fight, as they wrestle over a flower until a winner is declared.
