

Jefferson Memorial: A Monument to Greatness

The third president of the United States, Thomas Jefferson, was much more than just a politician—he was a writer, scientist, architect, and scholar who was considered one of the most brilliant figures of his age. To commemorate Jefferson's numerous accomplishments, a rotunda was constructed on the National Mall in Washington, D.C. Within is a statue of Jefferson, while on the walls nearby are quotations from some of his most famous writings, including the Declaration of Independence. The Jefferson Memorial is a symbol of American liberty. Surrounded by cherry blossom trees, it remains a popular site for reflection and inspiration.
