

Honeybear: The Beginning

This colorfully illustrated and engaging book teaches children not to fear cancer or blame themselves while dealing with the trauma of a diagnosis in the family. The story begins in the Catskill Mountains where Honeybear grows from a pine cone, to a seed, and then into a tree. Finally, she is carved from the wood and becomes a bear. Honeybear helps her friends Jack and Katie when a family member becomes ill. Honeybear reminds the children that they didn't do anything wrong, and they are always loved. Honeybear: The Beginning is a heartfelt educational tool that will be a timeless addition to the tradition of children's books that tackle difficult subjects with sensitivity and a positive perspective. Charles Carhart lives in Troy, New York, and is the owner of a family restaurant. He is currently working on the next book in the Honeybear series.
